

NTS Honored Citizen ID Cards

The City of Nashua is now issuing Nashua Transit System (NTS) Honored Citizen ID's to passengers who qualify to receive a reduced fare while traveling on our City Bus system.

Eligible persons include Veterans, Medicare card holders, and persons with disabilities. The benefit of this ID card is that when you board you simply show the NTS ID card with your fare, without having to show a Veterans or Medicare card.

Passengers **ARE NOT** required to have this new ID to receive the reduced fare. Passengers may still opt to follow the same procedures that they always have followed.

- Veterans may show a Veteran ID
- Medicare card holders may still show the white card with blue and red stripe along with a valid state or government issued ID.
- Persons with disabilities have not had identification in the past; as a result they will be required to have this ID.

Important:

The Honored Citizen ID is valid for a discounted rate, NOT a free ride.

Seniors wishing to ride free, must still show the "senior ticket" that is issued at the Transit Center. Seniors may elect to obtain an ID Card, but it is not required for the free ride.

The City will be issuing ID's at 11 Riverside St. on an ongoing basis. Passengers can call Kristi Gillette to make an appointment prior to coming. She can be reached by calling 603-821-2030.
